To complete the AZ/US Constitution certification requirement, students may choose one option:

1. [AEPA Exam](#) (100 multiple choice questions, fee required); or
2. Take the related college course (i.e., POL 210) and **get it transferred to your UA transcripts** if you took it at another institution. Please note that if you take a course it must include both the US Constitution and AZ Constitution (otherwise, you need to take two courses if they are not combined).

Did you take a course or the AEPA test to fulfill this requirement?

Date completed

If you took a course, list course and institution?

If you took a course, is the course on your UA transcripts yet? Yes No

Please list all courses (including any courses for minors and/or other majors) still not yet completed or passed (grade of C or higher is required for all major coursework). *Note that for Fall Student Teachers, all summer courses must be completed (and transferred to UA, if applicable) no later than the end of Summer Session I. For all Spring Student Teachers, no Winter session courses are allowed.*
